Aims

To provide delegates with knowledge and skills that will allow them to ensure work is properly planned and organised, and that those involved in carrying out the work are competent and properly trained.

This **remote learning** and examination option for the Ladders and Stepladders for Managers course has been created to allow delegates to gain and develop the required knowledge outside of the classroom.

Ladder Association courses are recognised by The Health and Safety Executive (HSE) as the leading safety training when working with Ladders. For further information please download 'LA455 Safe Use of Ladders and Stepladders – a brief guide' which is the new guidance jointly produced by the Ladder Association and the HSE.

Who Attends

Any person who has responsibility for overseeing the work of operatives on site, ensuring that work is properly planned and organised and that those involved carrying out the work are competent and properly trained, and that ladders, Stepladders and Step Stools are correctly inspected and maintained.

Virtual Classroom
This course will be delivered via video conferencing using Microsoft Teams Virtual Classroom. This allows two-way communication, ensuring the course is interactive with delegates having the opportunity to ask questions. Each delegate in attendance must have a webcam and microphone, to provide evidence of identity and the ability to answer all examination questions. For more information on how to use Microsoft Teams Click Here.

Course Content

The training and examination for this course will be delivered remotely via Microsoft Teams, but will follow the same curriculum as the classroom course and the same standard of training will be delivered, meeting all Scheme Rules.
